

ANVIL EPS

ENGINEERED PIPE SUPPORTS

Engineering Design & Field Services

Technical Services

Anvil's design and inspection services, either on-site or off-site, help to maximize the efficiency of your pipe support systems.

These services include:

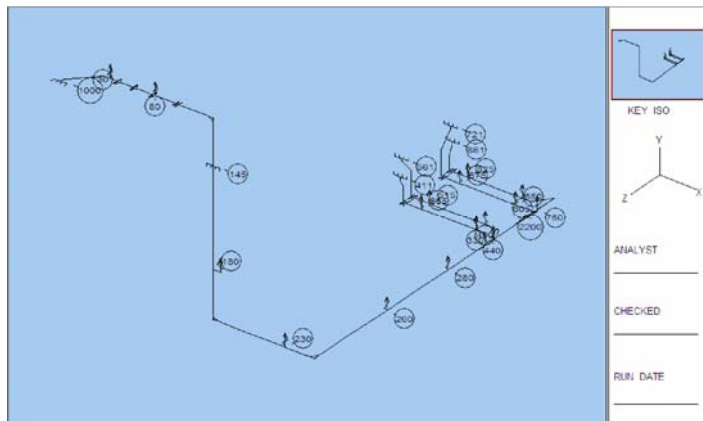

- Pipe Hanger Design and Engineering
- Field Inspection and Evaluations
- Drafting Services
- Pipe Stress Analysis
- Product Qualification Testing
- Technical Assistance for Product Installation

The Engineered Pipe Support Division has the manufacturing facilities, testing equipment and technical expertise to provide extensive design and engineering, maintenance, and repair/rebuild services.

Engineered Hanger Product Line:

- Constant Supports, Hydraulic Snubbers, Variable Springs, Sway Braces and Sway Struts

On-site service available by Anvil EPS Engineers for fossil and nuclear plants.
